## Official Statement

### Product Compliance Requirements for Auroshikha Products in Germany

To whom it may concern,

As the manufacturer of Auroshikha products, we wish to clarify the regulatory requirements applicable to the placement of our products on the market within Germany.

### 1. Regulatory Responsibility

Under applicable European and national legislation, including the EU General Product Safety Regulation (EU) 2023/988 (GPSR) and the German Product Safety Act (Produktsicherheitsgesetz – ProdSG), the economic operator placing a product on the EU market (importer or distributor) is responsible for ensuring full compliance with all applicable legal requirements.

This includes, where applicable:

- Proper product labeling in the German language
- Inclusion of mandatory safety instructions and warnings
- Identification of a responsible economic operator established within the EU
- Availability of required technical documentation and traceability information

### 2. Products Originally Supplied for Non-EU Markets

Certain Auroshikha products manufactured for the Indian domestic market (e.g., products labeled as “Agarbathies”) may differ in labeling structure and regulatory documentation. Such versions may not automatically fulfill the specific legal requirements applicable in Germany.

Any entity importing such products into the EU assumes full responsibility for verifying and ensuring compliance before placing them on the market.

Vivekananda Nagar, Puducherry - 605005.

## AGARBATHIES

A Unit of Sri Aurobindo Udyog Trust  
Sri Aurobindo Ashram, Puducherry.

### 3. EU-Based Responsible Operator

Products distributed within the EU must indicate an EU-based responsible economic operator on the packaging in accordance with applicable regulations.

Auroshikha has appointed Anandam (Michael Klötzel) as its official distribution partner for Germany. Products supplied through this channel are structured to meet applicable regional regulatory requirements, including language labeling and responsible operator designation.

### 4. Compliance and Liability

Economic operators offering Auroshikha products in Germany are advised to carefully assess their regulatory obligations. Failure to comply with applicable product safety and labeling laws may result in regulatory measures by market surveillance authorities or exposure to legal claims under applicable competition and consumer protection laws.

Auroshikha remains committed to product safety, regulatory compliance, and responsible global distribution practices.

Kind regards,

UDAVI AUROSHIKHA AGARBATHIES
